Education

University of Massachusetts Amherst Amherst, MA
Bachelor of Science in Computer Science; Minor in Economics (GPA: 4.0) *Expected: May 2028*
- Coursework: Object Oriented Programming, Data Structures & Algorithms, Computer Science Principles, Statistics
- Honors: Dean's List (Fall 2025 – Spring 2026)

Experience

Data Engineering Intern | Python, FastAPI, Docker, GCP, MongoDB, Groq Feb. – Aug. 2026
Breakthrough Labs *Virtual*
- Built and deployed claim-verification application from concept to production to support research community
- Implemented research-document retrieval & processing pipeline utilizing *OpenAlex* and *Groq API* LLM reasoning
- Automated CI/CD deployment of Dockerized *FastAPI* app to *Google Cloud Run* using *GitHub Actions*
- Stored user chat data to *MongoDB*; implemented bulk retrieval of client demo-query results

Internal Operations Coordinator 2026 – Present
University of Massachusetts Amherst Student Alumni Association *Amherst, MA*
- Distributes weekly meeting summaries & event reminders to 225+ members; serves as primary communicator
- Monitors and updates new member intake and individual member data with *Airtable*
- Maintains member-facing website content: office hours, event dates, current leadership info, and graphics

Eagle Scout 2019 - 2025
Boy Scouts of America *Manasquan, NJ*
- Led construction of meditation labyrinth; managed fundraising/distributing $1,000+; organized 20+ volunteers
- Explained and reported weekly Troop 39 meeting plans and other communications via email to 80+ members

Head Lifeguard 2023 – Present
YMCA Camp Zehnder *Wall Township, NJ*
- Enforces Red Cross emergency response protocols in high-stress & high-volume summer camp environment
- Leads lifeguard drills, position assignment, pool maintenance, and communication with camp directors

Projects

Software Developer | Python, Pandas, numpy, BeautifulSoup Oct. 2025
HackUMass XIII: UMass Meal Plan Wrapped *umass.food*
- Built hackathon web app comparing UMass meal-plan option costs to help students identify lower-cost options
- Parsed *HTML* meal-plan tables with *BeautifulSoup*; used *Pandas* for calculating cost statistics
- Collaborated with team under high-stress, 36-hour deadline to deliver working application

Software Engineer | Python, Gemini API, FastAPI Feb. 2026
Hack(h)er 413: Course Champ *course.savaryn.me*
- Integrated *Gemini 2.5 Flash* with *FastAPI* to extract structured dates and deadlines from course syllabi PDFs
- Built, hosted, & demoed web interface transforming extracted dates into downloadable .ics calendar files

Data Scientist | Python, R, numpy, scikit-learn May – June 2025
Student Depression Exploratory Data Analysis
- Trained machine learning model (accuracy 85%) with *scikit-learn* to predict depression from qualities such as diet
- Visualized findings using *R* & *Pandas (Matplotlib)* to present findings to non-technical audience

Web Developer | HTML, CSS, JS Oct. – Nov. 2025
Code Clicker *game.savaryn.me*
- Developed web-based video game utilizing localStorage for persistent browser state game-saving
- Designed and implemented 7-manager, 9-upgrade game progression using vanilla JavaScript objects

Software Developer | Python, Discord API Oct. – Nov. 2025
Counter Bot, *github.com/LightRiver3010/Discord-Counter-Bot*
- Created Discord bot introducing a competitive score-based game into servers for member entertainment
- Programmed score and leaderboard commands; deployed successfully in an active server of 20+ members
- Increased user interaction by 410% within first week of deployment; increase sustained across following month

Skills

Languages: Python, Java, C, JavaScript, R, Ruby
Web/Frameworks: FastAPI, HTML, CSS
Data & Databases: Pandas, NumPy, scikit-learn, Matplotlib, MongoDB, SQL (MySQL), Tableau, Microsoft Excel
Cloud/DevOps: Git, GitHub, GitHub Actions, Docker, GCP, Linux, Bash, Microsoft (Office, Teams, Powerpoint)
